

versa-tops™ hinged glass tops

Our glass tops are perfect for reducing evaporation and keeping fish from jumping out of your aquarium. Each Versa-Top™ features a clear vinyl back strip that can be easily cut to custom fit your accessories. Special store use Versa-Tops™ feature heavy 3/16" glass with notched corners for air lines and larger glass sections that allow easier netting of fish.

Superflex hinge color matches all aquarium trim colors.

* Fits both left and right 95 Wave aquariums.

twin-tube deluxe full hoods

All-Glass Twin-Tube Deluxe Full Hoods are custom fit to provide perfect aquarium lighting. They are specially engineered to create a new level of lighting by evenly distributing light for a more beautiful aquarium display. For safer operation and longer ballast life, each light has the fluorescent ballast mounted inside the light housing with aluminum heat dissipators and extra vents. Full length doors provide roomy access in front, and cut out rear sections allow installation of most popular accessories.

*Fluorescent

LIGHTING

strip-lights aquarium lighting

All-Glass Strip-Lights are used with Versa-Tops™ for proper aquarium lighting. Fluorescent models feature internally-mounted ballasts with instant-start circuits that allow operation on a timer or switch-controlled outlet. Deluxe models include polished aluminum reflector and full length fluorescent tubes. These are exact strip-light replacements for full hoods.

Electronic Ballast included in all Twin Tube, Compact Fluorescent and 36", 48" Deluxe Single Tube Strip-Lights.

- Uses 50% less electricity compared to equivalent light powered by standard magnetic ballasts.
- Lamps will run more efficiently, distributing 10-22% more light compared to standard magnetic ballasts.
- Generates 60% less heat compared to standard magnetic ballasts.
- No more "flicker" - instant start can extend lamp life by up to 50%
- Weighs up to 4 lbs. less than the equivalent standard magnetic ballasts.

triple tube strip-lights

Each All-Glass Aquarium Triple Tube Strip-Light features an electronic ballast and comes complete with three All-Glass Aquarium 8000K "Full Spectrum" lamps. It is designed to run all T-8 lamps, allowing the user to mix and match different light spectrums. A great light for aquarium plant enthusiasts and avid fish keepers.

Important: only use Strip-Lights over glass tops. They are NOT designed to be safely used over open water.

compact fluorescent 8000k “full spectrum” lamps

The High Output Compact Fluorescent Strip-lights feature the latest design and are UL® listed for use over glass tops. The new Strip-Lights are rated at 55 watts if equipped with one lamp, and 110 watts if equipped with two lamps.

8000K color temperature compact fluorescent lamps enhance the beauty of all fish. These lamps are included with each Strip-Light. The state-of-the-art electronic ballast is quiet, uses less energy and runs cooler than conventional ballasts.

compact fluorescent lamps

55/65 Watt Compact Fluorescent lamps have an efficient 12-14 month life cycle. Use the 10,000K SuperDaylight for activation of photosynthesis in chlorophyll A and C, TrueActinic for a living reef, which duplicates the light spectrum at 8-15 feet, or the ReefLamp for true 10,000K SuperDaylight and TrueActinic lamps. Full Spectrum 8,000K lamps feature bright natural lighting for freshwater and saltwater setups.

LIGHTING

6,500k mini compact aquarium bulb

The energy efficient 10-Watt Mini Compact Fluorescent bulb from All-Glass Aquarium Co., offers the choice and flexibility to upgrade incandescent fixtures with a full spectrum 6,500 Kelvin Temperature bulb. The light output of the Mini Compact is equivalent to a 50-Watt incandescent bulb and the 6,000-hour life rating will last up to 6 times longer than standard incandescent bulbs. The Mini Compact uses less electricity and runs cooler than conventional tubular incandescent aquarium bulbs. The Mini Compact's internal components are coated for additional environmental protection. C UL US listed.

information

Use this information to plan what size aquarium fits your needs and space. For safety reasons please be sure that the base for your aquarium is capable of supporting the full weight specification. Also, please note that tempered bottom aquariums are exceptionally strong but cannot be drilled, see page sixteen for pre-drilled aquariums.

100% silicone aquarium sealant

Our 100% silicone aquarium sealant is easy to apply and waterproof to stop leaks. The high strength silicone creates a permanent seal that will not crack or shrink and is non-toxic making it perfect for use on all aquariums. For standard aquariums use clear and Black Seal™ aquariums use black sealant.
