# Multi Vista

Size: 24 x 24 x 63" (61 x 61 x 160cm)  
 Total Cage Height: 71" (180cm)  
 Bar Spacing: 1/2" (1.27cm)  
 Wire Gauge: 1/8" (.32cm)

Available Colors: Platinum  Pearl White   
 Colors: Stainless Steel 

The Multi Vista is an exceptionally versatile cage, ideal for breeders, pet stores and people with multiple birds. The base unit can be purchased alone, allowing the flexibility of one large "vertical" cage or divided horizontally to create two smaller cages. Additional expansion units can be purchased allowing even greater flexibility of having one, two, three, four or more cages. The secret to this unique cage is the panels separating the cages can be removed! The Multi Vista comes with space for a UV light for the lower cage, nest box doors, and front mounted food doors.

## Bird Rest Shelves

Size:	12" radius	(20cm)
Bar Spacing:	3/4"	(1.905cm)
Bar Width:	1/4"	(.635cm)

Available Colors:      Sapphire Blue       Emerald Green   
    Ruby       Platinum   
    Pearl White       Black 

We designed a place for your bird to “hang out” and play with toys or eat treats. The Bird Rest Shelf can be used in any manufacturer’s cage, not just an Avian Adventures cage. It gives the bird an additional “level” or “floor” to their cage, and can be used to hold anything that a bird wants to play with that you cannot hang from your cage—like pine cones, old magazines to chew on, toilet paper, foot toys, you name it. Also great for birds with perching difficulties. People love this inexpensive but highly-functional add-on. Every cage needs one!

## Play Gym/Playtop Conversion Kit

Our playtops make great tabletop play gyms for your bird (they can also be purchased to convert an Avian Adventures Dometop cage into a Playtop cage). Available in Nina, Chiquita, and Mediana sizes.

Available Colors:  Sapphire Blue  Emerald Green  
 Ruby  Platinum  
 Pearl White

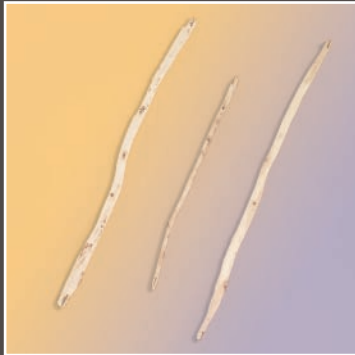

## Dometop Conversion Kit

Convert an Avian Adventures Playtop to a Dometop and add more interior room. Installation is a snap and switching tops is always an option. Available in Nina, Chiquita, Mediana and Grande sizes.

## Perches

Our perches are made out of durable mangrove wood. These woods are lighter yet harder than manzanita. Extra perches are available for all of our cages and are designed with simple notched ends to easily fit into any comparably-sized cage on the market.

## Food Cups

All cages come with either plain or tiffany-decorated stainless steel cups. The beautiful blue tiffany cups come with Sapphire Blue cages, gold/green tiffany cups come with Ruby, Emerald Green, and Pearl White cages, and plain stainless steel cups come with Platinum, Black, and Stainless Steel cages. Extra or replacement cups are available for all sizes and colors. (clockwise from top right): Blue, Stainless Steel, Gold/Green.

## Latches

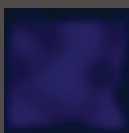

Bird-proof latches that really work! Birds cannot imitate the twist to open technology of the locking latch knob, making additional padlocks unnecessary.

## Casters

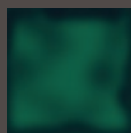

Attractive, sturdy casters make moving your cage easy with durable rubber wheels that roll smoothly across your floor. Our custom casters are designed to match your gold or silver trim package.
